Rushbrook Primary Academy

Subject Information. EYFS Computing

In Early Years, Computing is taught across the Early Years Framework and as part of provision. The children have access to laptops and iPads where they use different apps and software to enhance their learning. The children in Early Years are learning about what technology is, what simple programs can do and using these programs to create simple outcomes. In reception the children will learn:

- To know that an action happens when a button is pressed/knob is turned.
- To know that information can be found on a computer.
- To know where to find different technology.
- To use a simple drawing program.
- To use different apps to create shapes and write letters.
- To interact with age-appropriate computer software.
